

Curriculum Guide

We use curriculum that is tied to the Arizona State Standards:

Math - Everyday Mathematics is a K through 6th grade mathematics curriculum developed by the University of Chicago School Mathematics Project. The federal government's What Works Clearinghouse gave Everyday Mathematics the highest rating of any commercially published elementary mathematics curriculum.

Reading - Storytown is a research based comprehensive reading/language arts program for Kindergarten to 6th Grade. It is engaging and appropriate for all learners.

Writing - The Write Tools is a comprehensive writing program that provides strategies to teach students how to write with rich language and well-developed thoughts.

Science - McMillian/McGraw Hill Science is a research based science program for Kindergarten to 6th Grade.
