

Park Parent Nights

Reading Under the Stars

A community outreach that elicits business owners, Holbrook Police Department, Holbrook Fire Department, Petrified Forest, Department of Transportation, City of Holbrook, and family members to interact with students and read literature under the stars. This is typically held in the month of September. All k-2 students receive a literature bag that includes a hard cover book from a feature author, flashcards, and several paperback books that are grade appropriate. It is our intent to build communities that support children's literature in the homes.

Read Alongs

Park Elementary School promotes and encourages student participation at community based reading events held at the Holbrook Public Library, most notably The Teddy Bear's Picnic, Dr. Seuss' Birthday and the Summer Reading Program.

Career Day

Each year, community members and business owners are invited to come and share information on their profession. Through this opportunity, students are exposed to path that can lead them into various careers. Our library is another venue we introduce our students to different careers that may interest them. Several times a year, Individuals are invited to present.

Navajo Cultural Winter Night

Holbrook is a diverse community, which we promote. In November, we hold an evening to celebrate the Navajo Community. This is an opportunity for all students and their families to engage in Navajo games and traditional food.

Family Fun and Fitness Night

Each year in May, Park hosts a Health Fair and Family Fitness Night The Family Fun and Fitness Night enable parents to go to one location to sign up for various athletic activities and summer programs in the Holbrook area. Physical activity stations and health and safety booths are present providing information and entertainment for local families and community members throughout the evening. A free healthy dinner is available to families with prizes being awarded to both school and community members. The evening is supported by the Fuel Up to Play 60 Program, Navajo County Health Department, Winslow Indian Health Care Center, University of Arizona Cooperative Extension, community members and other local businesses, groups, and state agencies.
